Investment Universe Exclusions

In line with our "Responsible Investment" policy, we have 2 Pillars of bottom-up considerations starting with initial investment universe of the fund:

Pillar I: Norm-based Screening

Norm-based screening is the process of excluding companies associated with key social or environmental issues.

According to the European Sustainable Investment Forum, it is the "screening of investments according to their compliance with international standards and norms".

Pillar II: Exclusionary Screening

Negative or exclusionary screening is the process of excluding companies from an investment universe based on our expectations regarding specific ESG-related risks.

		Number of excluded companies	Excluded weight as percentage
